the world is in dire need of **your talent**

Your generation will enter the workforce at a time when it is long on opportunity and short on available applicants – and that's great news for you. Whether you know the career you'd like to pursue or not, your future success hinges on just a few key attributes.

During your time with Michael Hoffman, he'll show you how to effectively:

- Influence others
- Take initiative
- Identify the traits of role models who have profoundly impacted your world and way of thinking
- More clearly understand the influence you personally have

Michael will enlighten you to the technology, tactics and tools at your disposal to be influential, with the ultimate goal of transforming self-focus to the grander service of focusing on those around you.

Michael Hoffman is founder and owner of Igniting Performance Inc., a Dallas-based company that specializes in the skills of sales, customer loyalty and leadership. Michael's highly interactive style, contagious personality and unique delivery cements his experiences in the minds of attendees.

At Stride you'll participate in team challenges and a whirlwind of activities that bring out the leader in you.

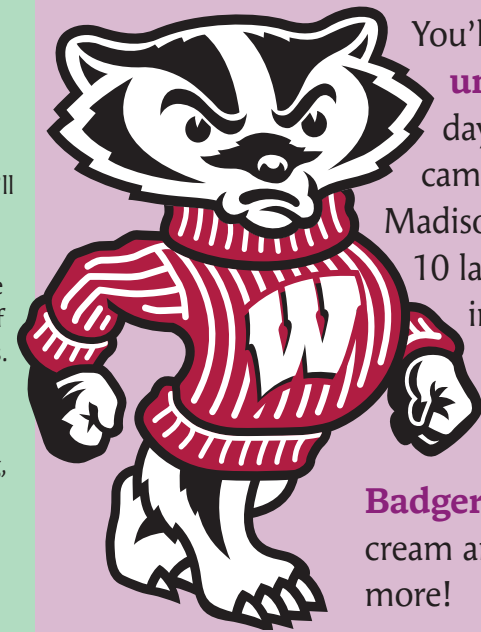

You can have a tremendous impact on your family, friends, neighbors and more, if you choose. Together with Michael Hoffman, you'll learn important techniques to make a greater impression on your world — and become a leader with high emotional intelligence, strong social and communication skills, and an ability to collaborate with others.

roll up your sleeves for **hands-on labs**

Participate in hands-on labs and on-campus experiences that'll revitalize the way you think. You'll explore the ooohhs and aaahhs of food science, take an inside look – literally – at the digestive tracts of different animals, and get your hands in the dirt with soil science gurus. Interact with and ask questions of experts, grad students and others working in agricultural fields.

Even if agriculture's not your thing (yet), you can put your talents to work in one way or another in this rapidly changing sector. Whether you're interested in sales, marketing, journalism, broadcasting, IT, conservation, medicine, finance, law or countless other fields, there's a place for you.

You'll spend an **unforgettable** day on the campus of UW-Madison, one of the 10 largest research institutions in the country and home to **Bucky Badger**, Babcock ice cream and so much more!
